_____)	

The Court has been informed by the mediator in this case that mediation did not result in a successful settlement, but that talks are ongoing. While the Court encourages the parties to continue pursuing settlement options, the Court must require that discovery proceed in this case. To this end, the Court hereby requests that the parties attend a status conference on Monday, December 8, 2014, at 10:00 A.M, for the purpose of discussing the method of selecting 100 claims for the first phase of trial in this case. A notice of the status conference is issued contemporaneously with this Order.

IT IS SO ORDERED.
